Response to Amendment

Amendment filed on December 12, 2007 has been entered. Claims 1-12, 14-24, and 31-36 are pending in the application. Claims 21-24 are withdrawn from consideration as directed to a non-elected invention.

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1, 2, 4, 5, 7, 10-12, 14, 15, 17-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jacobson et al in view of Suda et al (US 4731855) and Kamieniecki et al (US 5661408) for the reasons of record set forth in paragraph 4 of the Office Action mailed on 10/09/2007 because the amendment does not change the scope of claimed invention.
- 3. Claims 1, 2, 4-12, 14-20, and 31-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carter (US 6,730,617) in view of Suda et al and Kamieniecki et al for the reasons of record set forth in paragraph 5 of the Office Action mailed on 10/09/2007 because the amendment does not change the scope of claimed invention.
- 4. Claims 3, 6, 20, 31-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jacobson et al in view of Suda et al and Kamieniecki et al, as applied above, and further in view of Bulthaup et al (US 6,936,181) for the reasons of record set forth in paragraph 10 of the Office Action mailed on 7/27/2006.
- 5. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Jacobson et al in view of Suda et al and Kamieniecki et al/Carter in view of Suda et al and Kamieniecki et al/, as applied above, and further in view of Walter et al (US 4,099,913) for the reasons of record set forth in paragraph 9 of the Office Action mailed on 7/27/2006.
- 6. Claims 6, 8, 9, 16, 20, 31-32, and 34-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jacobson et al in view of Suda et al and Kamieniecki et al, as applied above,

Application/Control Number: 10/751,270 Page 3

Art Unit: 1792

and further in view of Carter for the reasons of record set forth in paragraph 12 of the Office Action mailed on 7/27/2006.

Response to Arguments

7. Applicant's arguments filed December 12, 2007 have been fully considered but they are not persuasive.

§103 Rejection of the Claims

Jacobson et al. in view of Suda et al. and Kamieniecki et al.

The Office admits therein Jacobson fails to teach in-situ testing the substrate while attached as part of an array of substrates. Suda and Kamieniecki do not remedy Jacobson because Jacobson's technology if applied to either of Suda or Kamieniecki, would destroy such inventions. Further, the "substrate" of Jacobson is not the "substrate" of either of Suda or Kamieniecki. Consequently, merely that of either of Suda or Kamieniecki may teach testing of their substrates, fails to show a teaching or suggestion to combine their technologies with Jacobson. Further, Jacobson would not look to either of Suda or Kamieniecki to solve any technical challenges or fields of endeavor.

The Examiner respectfully disagrees with this argument. First of all, Suda and Kamieniecki were cited by the Examiner only to show that in-line or in-situ testing was known in the art of manufacturing semiconductor devices for e.g. fast testing of patterns on semiconductor wafers, etc. to reduce the financial losses resulting from errors. The Examiner never addressed the testing techniques because they were not recited in claims. Therefore, in contrast to Applicants assertion, neither Jacobson's technology was applied to either Suda or Kamieniecki nor testing techniques of Suda or Kamieniecki were applied to Jacobson.

Carter in view of Suda et al. and Kamieniecki et al.

Art Unit: 1792

The Office admits that "Carter fails to teach in situ testing the substrate while attached as part of an array of substrates." Suda and Kamieniecki have nothing to do with what is claimed. Similarly to the above rejection involving Jacobson, the disconnect lies between Carter and the Suda and Kamieniecki references, where Carter's technology if applied to either of Suda or Kamieniecki, would destroy such inventions. Further, the "substrate" of Carter is not the "substrate" of either of Suda or Kamieniecki. Consequently, merely that of either of Suda or Kamieniecki may teach testing of their substrates, fails to show a teaching or suggestion to combine their technologies with Jacobson. Further, Carter would not look to either of Suda or Kamieniecki to solve any technical challenges or fields of endeavor.

The Examiner respectfully disagrees with this argument for the reasons discussed above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elena Tsoy whose telephone number is 571-272-1429. The examiner can normally be reached on Monday-Thursday, 9:00AM - 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Meeks can be reached on 571-272-1423. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
